

# KILLER APPLETS

UPB Home Automation Control

## Bachelor's Friend

### BENEFITS

- **Fun**—Dim the room lights so slowly that no one is aware until they're off!
- **Security**—Let children feel secure by starting bedtime with the lights on
- **Easily installed using:**
  - 1 or more dimming lamp or wall switch modules
  - 1 desktop or wall-mount controller

### *Set a romantic mood slowly...*

WHEN IT'S TIME FOR A ROMANTIC EVENING, use UPB's extended fade rate to slowly but surely set just the right mood. Dimming from on to off over an hour timeframe is a barely perceptible operation. No need to interrupt an intimate conversation by getting up to adjust the lights, just sip your wine and relax in the gathering dusk.

Even if you don't have the time or inclination to plan a romantic evening, use this same feature to help youngsters settle into bedtime in the security of a still-lit bedroom. Set the child's bedroom lights to a

### WHAT IS A KILLER APPLETS?

"Killer App" is industry jargon for an application that persuades users to buy the system it runs on.

There is no single killer app for home control, but there are many Killer Applets — UPB-based applications that can satisfy your individual needs.

Take a look at our collection of Killer Applets and we think you'll agree: home automation using UPB is the right choice to enhance the safety, security, and comfort of your home.
